

## Procedure that requires prior approval

### Thames Valley Priorities Committee Commissioning Policy Statement

**Policy No. TVPC55**                      **Primary hip and knee replacement revision surgery**

**Recommendation made by  
the Priorities Committee:**        **March 2017**

**Date of issue:**                        **June 2017**

As per NHS England Service Specification (2013)<sup>1</sup>, specialised orthopaedic services should be provided by appropriately trained multi-disciplinary teams (MDTs) at a specialist centre or hub provider through networks which have a critical mass to ensure that the right clinical skills and expertise are in place to ensure excellent outcomes.

Hip and knee revision surgery can be carried out by local Specialist Orthopaedic Units, with the required expertise, with the exception of patients requiring specialist procedures for massive bone defects, pelvic fractures, infection or complex segmental femoral reconstruction. These patients should be referred to a Specialist Orthopaedic Centre.

**General referral guidance for knee joint replacement revision surgery:**

NHS funding for referral and assessment for revision of knee joint replacement surgery should be recommended in patients in whom the following criteria are met:

1. The patient has persistent pain which may indicate the presence of joint infection.  
OR
2. Where infection is not suspected the patient has:
  - a. persistent joint pain and/or loss of range of movement and function AND
  - b. X-ray confirms the presence of aseptic loosening of the prosthesis AND
  - c. had the evidence for outcome from revision surgery explained to them and understands that the outcomes from revision surgery are not likely to be as good as those from primary replacement surgery.
3. All patients should be fit for surgery at the time of referral.

Initial assessment should be based in primary care with referral for consideration of revision surgery offered to symptomatic patients as above.

#### NOTES:

- Potentially exceptional circumstances may be considered by a patient's CCG where there is evidence of significant health status impairment (e.g. inability to perform activities of daily living) and there is evidence that the intervention sought would improve the individual's health status.
- This policy will be reviewed in the light of new evidence or new national guidance, e.g., from NICE.
- Thames Valley clinical policies can be viewed at <http://www.fundingrequests.ccsu.nhs.uk/>

#### OPSC codes:

NHS England Prescribed Specialised Service 'flag rule' indicates that third revision and greater will be funded by NHS England (OPCS-4 code Y717 'Third or greater revisional operation NOC 'National Clinical Coding Standards'). Thames Valley CCGs will fund first and second revision procedures only.
